Sample order	TABLE ACCESSORY CONNECTOR S P

1. Conference mobile table

1. Conference mobile table

1.1. Table top

Foldable rectangular table tops – made of:
- melamine faced chipboard (MFC), thickness 25 mm, with 2 mm edge in glue technology as standard, or laser edge as an option, with rectangular shape. Table tops are available in several dimensions,
- Fenix NTM – upper part of chipboard covered with Fenix NTM laminate, bottom part covered with anti-resilient laminate in white colour, thickness 25 mm, 1 mm laser edge in the same colour as table top.

1.2. Base

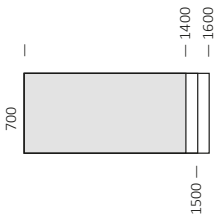
Oval legs – made of steel profile 80 × 30 mm rounded at 15 mm radius.
Beam – made of steel tube Ø 40 mm, connected with legs. Supporting beams – made of steel profile 50 × 30 mm fixed to table top, with black plastic caps. Additional beam with lock and unlock function is connected with supporting beams.

Finish options: powder-coated in Traffic White (RAL 9016), Jet Black (RAL 9005), White Aluminium (RAL 9006).
Fixed height 730 mm as standard.
Four Ø 60 mm castors, two equipped with brakes.

1.3. Product range

Base

Rectangular



2. Plastic connectors

In order to link two table tops it is required to use:
- minimum 1 set (2 pcs) of connectors to link table tops by depth,
- minimum 2 sets (4 pcs) of connectors to link table tops by width.

3. Technical regulations, certificates and quality marks (for selected product configurations)

- TÜV Safety Certificate – GS mark – norm EN 15372
- TÜV Certificate – "FEMB Level (EU) – Level 3"
- RAL gGmbH Certificate – "Blue Angel" – requirements DE-UZ 38
- IBA Quality Certificate – "Quality Office"
- Environmental Product Declaration (EPD) – EN ISO 14025, Type III
