

ARMRESTS

Integrated with chair frame, available with plastic, laminated or plywood armpads. Chair can be hung on the table top (CADEIRA 4L-ARM/FRONT only)

WRITING TABLET

Easy and quick assembly / disassembly of the tablet on / off the chair. A large and stable tablet made of plywood (also laminated) available for right and left-handed people (for CADEIRA 4L-ARM only).

FRAME

Made of chromium plated steel tubes (Powder coated frames available upon request. Please be informed that Cadeira chairs with powder coated frames should not be stacked.)

ROW CONNECTION

A link for joining chairs into rows with magnetic numeration for seats and rows (CLICK-J3- NRM).
Optional: hook-like linking module without numeration (CLICK-J4). Both are available for all CADEIRA versions.

GLIDES

Standard: Glides for soft floors.
Optional: Glides for hard floors. Self-levelling glides for hard or soft floors. Acoustic glides with special structure reducing noise emitted, anti-scratch.

WALL PROTECTION SYSTEM

40 mm distance between backrest and the wall to prevent scratching of the wall.

VARIETY OF FINISHES

Wood: Seat and backrest made of wood.
Seat-Plus: Upholstered seat pad with wooden backrest.
Plus: Separately upholstered seat and backrest pads. The rear part of the backrest - wooden.
B-Plus: The front part of the chair fully upholstered. The rear part of the backrest - wooden.
A-Plus: Fully upholstered seat and backrest.

HANGER

A hanger for storing tablets while they are not being used. It can store max 25 tablets. A hanger can be disassembled for easy storage.

STACKING

Stacking up to 6 pieces. Chairs may be stored in high vertical stacks to ensure an economic use of storage space.

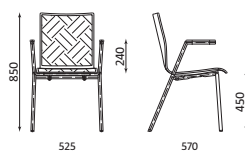

CADEIRA CART

Storing up to 6 pieces.
