V – The width of the base

M – The top depth
N – The top width

2. Materials / Versions

2.1. Armchairs and sofas

2.1.1. Base / Frame

4-leg frame – made of steel tube $\varnothing 20 \times 2$ mm.

X-sled frame – made of rod $\varnothing 12$ mm.

Finish options:

- powder-coated in Traffic white (E-WT), Jet black (E-BL) colour or Fashion Collection colours,
- chromium plated (E-CR).

4-leg wooden frame – legs made of solid beech or oak wood, fixing frame made of steel sheet, powder-coated in Jet black colour RAL 9005.

Finish options:

- natural beech (E-1.007),
- stained beech with slightly visible wood grains (E-2.***),
- natural oak (E-2.D07).

2.1.2. Glides

4-leg – black glides for soft floors (GB) as standard or with felt for hard floors (GBF) as an option.

Sled frame – transparent glides for soft floors (GT) as standard or with felt for hard floors (GTF) as an option.

4-leg wooden – black glides for soft floors (GB) as standard or with felt for hard floors (GBF) as an option.

2.1.3. Seat and backrest

Upholstered backrest:

- Structure of backrest inner part is made of 7-layer beech plywood, thickness 10,5 mm,

covered with flame retardant cut foam, thickness 30 - 45 mm and density 50 kg / m³ (front).

- Structure of backrest outer part is made of 3-layer beech plywood, thickness 4,5 mm, covered with flame retardant cut foam, thickness 10 mm and density 35 kg / m³ (back).

Upholstered seat:

- Structure of seat upper part is made of 8-layer beech plywood, thickness 12 mm, covered with two layers of flame retardant cut foam: density 35 kg / m³, thickness 20 mm and foam with density 40 kg / m³, thickness 20 mm,
- Structure of seat bottom part is made of 3-layer beech plywood, thickness 4,5 mm, covered with flame retardant cut foam, thickness 10 mm and density 35 kg / m³.

2.2. Table

2.2.1. Table top

Round table top – $\varnothing 380$ mm.

Finish options:

- melamine faced chipboard (MFC), thickness 12 mm, 2 mm edge in glue technology,
- linoleum – top part of beech plywood covered with natural linoleum, bottom part covered with antiresilient laminate in white colour, thickness 13 mm, with wax protected edges (plywood structure visible).
- Fenix NTM – top part of beech plywood covered with Fenix NTM laminate, bottom part covered with antiresilient laminate in grey colour, thickness 13 mm, with wax protected edges (plywood structure visible).

2.2.2. Base / Frame

X-sled frame – made of rod $\varnothing 12$ mm.

Finish options:

- powder-coated in Traffic white (E-WT), Jet black (E-BL) colour or Fashion Collection colours,
- chromium plated (E-CR).

3. Packaging

Armchair – 1 piece per box (assembled).

Sofa – 1 piece per box (assembled).

Table – 1 piece per box (assembled).

4. Technical regulations, approvals and quality marks (pending)

REMODEX – approvals compliant with PN-EN 16139; PN-EN 1021.

5. Rules of upholsteries matching

Upholstery type is the same for each upholstered element.

Upholstery colour may be different for backrest inner part and seat upper part (one colour) and for backrest outer part and seat bottom part (one colour).
